\*The above seedlings offered at 35 cents are 2 year clumps raised from specially selected seed of outstanding varieties. Great variety of colors and types. A bargain at this price.

## LIRIOPE

(Sometimes listed as Ophiopogon or Mondo)

We are very proud of our fine stock of this fine border plant. The varieties we have listed are the result of many years of extensive selection to get the best and most hardy. We believe Liriope to be the most valuable border plant growing. It has so many good points that it fills the bill for an easily grown dependable border subject. It will grow right up against a large tree in dense shade as well as in the full sun. It is indifferent as to soils but likely prefers a soil on the acid side for maximum growth, Hardy to New York. In past years we have not been able to fill the demand; but we now can.

### LANDSCAPERS — NOTE

We have a prominent Landscaper in Georgia who uses over 20 thousand dollars worth of Liriope yearly in his work. Due to the fact of its size — shape and ability to stand sun or dense shade makes it an ideal border and specimen plant. A planting in nearby Griffin put in 30 years ago is still thrifty and a real beauty.

**LIRIOPE MAJESTIC**—One of the best. Grows 15 to 20 inches high. Has beautiful violet colored coxcomb-shaped spikes in the summer that stand above the foliage, and last a long time. The blooms are excellent as cut flowers. For a good border, should be planted 15 inches apart. Also makes nice specimen plants.

PRICE 10—\$2.00, 100—\$8.00 1,000—\$70.00

**LIRIOPE MUSCARI EXIFLORA**—The old standard green border plant. Stands unfavorable conditions. Much used in Landscape work.

PRICE 10—\$1.00, 100—\$6.00, 1,000—\$50.00

**RIEGEL'S CURLY TWIST**. This semi-dwarf, sturdy, stocky plant has the widest leaves of all — many  $\frac{3}{4}$  of an inch wide, and curled, and twisted. More cold resistant than any other. A worthwhile variety. Foliage dark green. Grows low and very bushy.

PRICE 10—\$2.50 100—\$10.00

**RIEGEL'S NEW WONDER EVERGREEN GROUND COVER**—At last a real ground cover for shady places where grass refuses to grow. Also good in full sun. All other Liriope ground covers we have tried grow too tall, or are slow to spread. Has narrow grass like leaves. Grows 6 inches high. Plant 12x12 inches. Spreads rapidly yet does not get out of bounds. A valuable introduction.

PRICES 10—\$1.00, 100—4.00 1,000—\$30.00

**LIRIOPE JAPONICA**—Very low growing with narrow grass like leaves. A fine low growing border and rock garden plant. A good ground cover for shady places but should be planted close for best results. Also grows well in sun.

PRICE 10—\$1.00, 100—\$4.00, 1,000—30.00

### CLUMPS

For quick results plant our Liriope clumps. The growth of Liriope is so hard and firm that transplanting is easy. Little wilting with no losses. We offer strong 4 year old plants.
